

I-270 North - Request for Qualifications

Submitted Questions and Responses

RFQ Section	RFQ Requirement	Question	MoDOT Response	RFQ Addendum?
Forms	Form DB-101 & Form DB 102	It appears that some of the forms including DB-101 and DB-102 issued with the RFQ are older version that what has recently been published for other recent MoDOT DB projects. For reference, Form DB-102 Reference Project Summary issued with the RFQ has a revision date of 11/2016, however a newer version of this form dated 8/2018 was used for the I-44 Bridge Design Build project. Since the information requested varies between form versions we would like to know if the form versions issued with this RFQ from 2016 will be the final version for this project.	For form DB-101, a Company Fax number will not be needed so this form will remain unchanged. Form DB-102 will be updated to the most recent revised version.	Yes
3.5 & 3.6	3.5: Key Personnel identified in the SOQ, including any "Additional Key Personnel" may not be removed, replaced, or added without written Approval of the MoDOT Project Director. 3.6: Only Key Personnel will be allowed in the oral presentation.	During the Oral Presentations would MoDOT consider allowing Design Builders to have additional staff attend such as the Project Executive or those that are identified as "Additional Key Personnel" for key tasks?	Additional Key Personnel can attend Oral Presentations as long they are added within Key Personnel in the SOQs as identified on Form DB-103. Any Additional Key Personnel will be evaluated as part of the SOQ evaluation.	No
